Mr. Robert A. Cochrane '83  
4602 Midsummer Lane  
College Station, TX 77845-9375

Dear Mr. Robert A. Cochrane '83,

I am pleased to provide you with the enclosed biographical sketch and photo(s) of your new Endowed Opportunity Award Scholar. This photo and information will serve as an introduction to your scholar. Your student will be given your address and encouraged to correspond with you as soon as possible after school begins. I hope you will take the opportunity to get to know these young people.

Each year, the Endowed Opportunity Award Scholarship Program continues to grow and attract outstanding young people. These scholars not only have shown academic excellence, but strong leadership ability. Following their education here at Texas A&M, they will be better prepared to contribute their ideas, knowledge, and leadership qualities to their community.

Thank you for your continued interest in Texas A&M and these young Aggies. Please let me know if you have any questions concerning the scholarship program, your scholar, or if our office can assist you in any way.

Kindest regards,

A handwritten signature in cursive script that reads "Marcy Ullmann".

Marcy Ullmann '86  
Manager of Scholarship Programs

Enclosure

Howdy!

My name is Tyler Thormahlen, and I am a freshman Civil Engineering Major from Kyle Texas. More importantly, I am a loud and proud member of the Fightin' Texas Aggie Class of 2018! I am very excited to be attending the best university in the nation, and I plan to get as much out of my time here as I can. My goals for school are many, but a few are: make friends to expand my network, volunteer for service projects to better the community, and of course, further my education. Although I am excited to attend Texas A&M, I look forward to life after college. With my education, I want to work with renewable energy firms. My career goal is to make sources of renewable energy, such as solar, wind, and hydro-electric, more affordable and accessible. After I graduate, I plan on making donations to Texas A&M, so students like me can afford to go to school, and continue to make the world a better place. It will be the least I can do to give back to the University that has given me the opportunity of a lifetime.

Thanks, and Gig'em!
